

Shape Name

Crystal (Plain Uplift)

Potter Name

Cockson & Seddon

Photo Type

Item - Photo

Item

Relish Dish

Notes

Crystal (Plain Uplift) is sometimes known by other names. The Tea Leaf Club International calls this Crystal Shape. It is also called Crystal Plain Scallop in the WICA Publication "White Ironstone Teapots an Identification Guide." Some pieces of Crystal have a scalloped top edge and others have a plain edge instead of the scallops.
